The Special Kids Network

Making Connections for Pennsylvania's Children with Special Health Care Needs

What is the Special Kids Network?

The Special Kids Network (SKN) is a free statewide service for families, like yours, with individuals who have special needs.

How do I get connected?

When you call 1-800-986-4550, you are connected to information and referral specialists. This professional and friendly staff is ready to provide you with support, up-to-date information, and referrals to agencies and organizations across the state that serve children with special health care needs.

How can SKN help?

The Special Kids Network can connect you to local resources for children or youth with special needs. The Special Kids Network works closely with Parent-to-Parent of Pennsylvania, a network that links families of children and adults with special needs to other families with similar situations. And now, you can access many other Commonwealth programs and resources that improve life for you and your family when you call SKN.

Is SKN in my Community?

The Special Kids Network works within your community to create or improve services for children with special needs and others.

To get involved or for more information call 1-877-986-4550 (TTY 1-877-986-5432) and ask for Community Systems Development.
