

Will your child be ready for kindergarten?

Do these 10 things every day!

Help your child succeed in school

Being “ready” means more than counting and saying the alphabet.

- Does your child know that the letters make sounds?
- Does she know that words are made of those letter sounds?
- He can count to 10, but does he understand “more than” and “less than”?

Talk with your child every chance you get!

1. Show him you are learning, too. Tell him what you learned today.
2. Encourage her to try something new and help her do it well.
3. At bedtime, read a story and discuss it. What was his favorite part? Why?
4. Look at signs and point out letters on them and the sounds they make.
5. Have her sort and arrange things like forks and spoons, coins or laundry.
6. Look around for something new to count. Look for numbers and talk about what they mean.
7. Listen for what she likes, and help her learn more about it.
8. Limit screen time. Encourage him to make up his own games, such as playing pretend.
9. Tell her what she is good at, and encourage her to do even more.
10. Show your love and say at least three positives for every negative.

How is my child doing?

Skills that kindergarten teachers are looking for:

Social and emotional		Not yet	Sometimes	Usually
1.	Expresses feelings appropriate to the situation			
2.	Knows own preferences and abilities			
3.	Can suggest simple solutions to conflict
